

I Read It (In The Rolling Stone)

Dion

Well I've been shaking down the new style
For a word to use my song
Treatin with the new man
I need to read my role
Man that's too hard
But I know I'm not alone

Yeah I know it's true
I read it in the rolling stone

You got to rock shocked people
They got to reckle magazine
They all told me around the sun jet
But tell me I don't will my jeans
You're not too hard
But I know I'm not alone

Yeah I know it's true
I read it in the rolling stone

I know the web is got the apple
I know I served to go to flow
I got to know the piece of travel
No with the rock stones know
Man it's not too hard
But I know I'm not alone
Man I know it's true
I read it in the rolling stone

You know sometimes I just gotta ask myself
What would my man Robert Plant do

You know the teach me met the teacher
Teach me and then been my girl
Tell me when the change of season
How to save this trouble world
Man not too hard
Are you know I know it's true

You know I know it's so
I read it in the rolling stone

And now [?]
and that will fill my knee
I got no key in the boob too
I'll be the last who can read
Man that's too hard
But I know I'm not lone
Yeah ah, uhh read it in the rolling stone

You know it's true
I read it in the rolling stone
