

# Only You Know

Dion

I wanna see somethin' that used to be in your eyes again  
I'm waiting to see it  
You know it's only a question of when  
And I know I must be missin' heaven  
You know that it's missin'

And only you know  
Where you have been to  
Only you know  
What you have been through  
There's better things you're gonna get into  
And I wanna be there too

I know it's not easy for you to start to believe again  
And when the day comes, don't let yourself be deceived again  
Yes I know how you've been waiting such a long time  
That you've been waiting

And only you know  
Where you have been to  
Only you know  
What you have been through  
There's better things you're gonna get into  
And I wanna be there too  
(You know I do)

And I know  
How you've been waiting such a long time  
That you've been waiting

And only you know  
Where you have been to  
Only you know  
What you have been through  
There's better things you're gonna get into  
And I wanna be there too
