

## Terraplane Blues

Dion

And I feel so lonesome, you hear me when I moan  
When I feel so lonesome, you hear me when I moan  
Who been drivin' my Terraplane, for you since I been gone. I'd  
said I flash your lights, mama, you horn won't even blow  
I even flash my lights, mama, this horn won't even blow  
Got a short in this connection, hoo well, babe, it's way down below  
I'm gion' heist your hood, mama, I'm bound to check your oil  
I'm goin' heist your hood, mama, mmm, I'm bound to check your oil  
I got a woman that I'm lovin', way down in Arkansas Now, you know  
the coils ain't even buzzin', little generator won't get the spark  
Motor's in a bad condition, you gotta have these batteries charged  
But I'm cryin', please, please don't do me wrong.  
Who been drivin' my Terraplane now for, you since I been gone.  
Mr. highway man, please don't block the road  
Puh hee hee, please don't block the road 'Cause she's reachin' a  
cold one hundred and I'm booked and I got to go Mmm mmm mmm mmm  
Yoo ooo ooo ooo, you hear me weep and moan  
Who been drivin' my Terraplane now for, you since I been gone I  
'm gon' get down in this connection, keep on tanglin' with your  
wires  
I'm gon' get down in this connection, oh well, keep on tanglin'  
with these wires  
And when I mash down on your little starter, then your spark plug  
will give me fire
