

Do You Believe In Love At First Sight

Dionne Warwick

Do you believe in love at first sight
Cause I believe that it happened tonight
Saw you there and the feeling was right
Now I believe in love at first sight
Cause I felt, cause I felt

The moment I saw you I knew that it had to be
Heard thunder, saw lightning
When you look at me
All of the love that was waiting there
Took off like a shooting star

Something inside me started a symphony
I got to be where you are

Do you believe in love at first sight
Cause I believe that it happened tonight
Saw you there and the feeling was right
Now I believe in love at first sight
Cause I felt, cause I felt

I'm dizzy and I'm shaking
Way up on the highest higher
Vibrations you're making are setting my soul on fire

Don't stop to get in a candy store
Don't know where I'm gonna start
I'll never let you go, I've gotta let you know
What's going on in my head

Do you believe in love at first sight
Cause I believe that it happened tonight
Saw you there and the feeling was right
Now I believe in love at first sight
Cause I felt, cause I felt

Just say the word, that I'll come running to you
If you feel like I feel baby
Come on the band is right, don't fight it
Leave your wife

Do you believe in love at first sight
Cause I believe that it happened tonight
Saw you there and the feeling was right
Now I believe in love at first sight
Cause I felt, cause I felt.
