

# Don't Burn The Bridge (That Took You Across)

Dionne Warwick

With just my love I kept you standing  
Till you were ready for life's flight  
With happy landings  
The ways of life I taught you  
All you needed I brought you  
And when you fell I caught you  
I made you strong  
Now you're leaving  
I have no one

Don't burn the bridge  
That took you across  
Don't walk away and leave me lost  
Don't burn the bridge  
Don't burn the bridge

You were my weakness  
I was your strength  
You took my love to build  
All of your confidence  
You used me then betrayed me  
But there's been less you've paid me  
I'm lost but you won't save me  
So deep [?]  
Don't drop me where I picked you up

Don't burn the bridge  
That took you across  
Don't walk away and leave me lost  
Don't burn the bridge  
Don't burn the bridge

Oh, baby, baby  
Don't burn it, baby, baby  
Now I can't make it  
I need your help  
Don't leave me here  
To save myself  
Don't burn it, baby  
Don't burn it, baby

You lit the match  
That set my dreams on fire  
You left me with tears to dry  
Round my desires  
My words [?]  
With pain too big to stop them  
So soon I've been forgotten  
From joy to pain  
There's been enough to make amends

Don't burn the bridge  
That took you across  
Don't walk away and leave me lost  
Don't burn the bridge  
Don't burn the bridge
