

## Go with Love

Dionne Warwick

This is the moment when we must say goodbye  
As you walk away, I'll close the door  
Here inside my room, I'll stay and I will wait for you  
Forever more

Go with love, when you leave me you go with love  
Oh my darling, you know I'm yours  
If it takes my whole life through  
Darling, I will wait for you

One bright tomorrow I know we'll meet again  
What I wouldn't give to see that day  
When the two of us can live  
And here inside my arms you'll always stay

Go with love, when you leave me you go with love  
Oh my darling, you know I'm yours  
If it takes my whole life through  
Darling, I will wait, so go, go with love

When you leave me you go, you go with love  
Oh my darling, you know, you know I'm yours  
If it takes, if it takes my whole life through  
Darling, I will wait somehow

Go with love, when you leave me
