

How Can I Hurt You

Dionne Warwick

How can I hurt you when I only want to love you?
If you let me love you I won't let you down
I won't be the kind who runs around
Don't think because you've been hurt before
That all girls are heartless
'Cause each day my heart keeps lovin' you more

How can I hurt you when I never want to leave you?
Why would I deceive you when I need you so?
I would sooner die than let you go

Don't be afraid of this love of mine
Just take me and hold me
And just watch me love you all the time

I know I could be happy if you would only trust me
Trust me, I'll make you happy
How could I hurt you when I only want you?
I love you so

Don't be afraid of this love of mine
Just take me and hold me
And just watch me love you all the time

I know I could be happy if you would only trust me
Trust me, I'll make you happy
How can I hurt you when I only want you?
I love you so

I'll never hurt you, darling
What can I make you love me?
I'll never hurt you, darling...
