

## How Long?

Dionne Warwick

People so afraid of silence  
Listen 'cause even your hearts are speakin'  
How long before we find an answer?  
How long before we find an answer?

Oh, the baby child still fightin'  
Sing out with words we can still believe in  
How long before we find the reason?  
How long before we find an answer?

So say love you, search for love  
And you'll find the answer  
And then when you can find the answer  
There'll only be another question

Sometimes I can feel the spirit shining  
Just knowing his love's beside me  
So close and still we keep on searching  
How long until we find the answer?

So say love you, search for love  
And you'll find  
And love is still our best protection  
Reach out and you will find the answer

How long before we find the answer?  
And love is still our best protection  
Reach out and you will find the answer  
How long before we find an answer?
