

I Could Make You Mine

Dionne Warwick

If I could be alone with you
The way that I am longing to
I could make you mine

If I could hold you very tight
The way I do in dreams at night
I could make you mine

But you belong to some other heart
And you vowed never to part

So I go on until the end
Just loving you while I pretend
If I had met you in time
I could have made you mine

But you belong to some other heart
And you vowed never to part

So I go on until the end
Just loving you while I pretend
If I had met you in time
Oh, I could have made, could have made you mine

Could have made you mine
Could have made you mine
