

# I Think You Need Love

Dionne Warwick

ong ago you left home  
Forced to make a life all on your own  
Now you're successful  
No one can doubt, no  
But when it comes to peace of mind  
You live without it

I think you need love, baby  
I think you need love, baby  
I think you need love, baby  
I think you need  
I think you need  
I think you need love, baby  
I think you need love, baby  
I think you need love, baby  
I think you need  
I think you need love

Now take a look and confess  
That your loneliness wasting away  
Your life getting emptier day by day  
You take it out on your friends  
You hurt their pride  
Now you know you're wrong  
But you hide inside

I think you need love, baby  
I think you need love, baby  
I think you need love, baby  
I think you need  
I think you need  
I think you need love, baby  
I think you need love, baby  
I think you need love, baby  
I think you need  
I think you need love

No, I'm no doctor, but I can see  
That your life is incomplete  
You feel the need to cry  
But you won't admit it  
Your life is unhappy  
But you're afraid to quit it

I think you need love, baby  
I think you need love, baby  
I think you need love, baby  
I think you need  
I think you need  
I think you need love, baby... [repeat]
