

If You Never Say Goodbye

Dionne Warwick

One thing I have I learned
When young bridges all have burned
There's no way to go back

Remember if you never say goodbye
Nothing ever ends
Just as long as we still can talk
We can make amends nothing ever ends
It never ends

Don't permit your pride
To just cast out of side
I'm sony I hurt you believe me

Remember if you never say goodbye
Nothing ever ends
Just as long as we still can talk
We can make amends nothing ever ends
It never ends

I know things are wrong
They won't be
That way for long
There's always tomorrow

Remember when the wind begins to blow
People have to bend
Broken windows can be replaced
Broken hearts won't mend people have to bend
They have to bend

Remember if you never say goodbye
Nothing ever ends
Just as long as we still can talk
We can make amends nothing ever ends
It never ends
