

Is There Another Way to Love You

Dionne Warwick

Is there another way to love you
Some other way to show you I want you and need you
If there's a way to make you care
I wanna know so I can end this deep dismay

Is there a word of love left unspoken
Or a vow I made that I've broken
Please, teach me how to be the kind of girl you love

Is there another way to love you
What must I do to prove I can't live without you
Oh, darling please give me a sign
I promise you I'll never rest until you're mine

Oh, how can you ignore such emotion
Fill my heart with love and devotion
Come to me, let me see this endless night turn to day
I love you with all my heart, is there another way
