

# Love Will Find a Way

Dionne Warwick

Each time I pray, I search for words that say  
All that I'm going through  
Here's what to say each time you pray  
I give it all to you

How can I know what's real  
Oh trust in yourself, believe in what you feel

I don't understand, what's the master plan  
Will it ever come together  
Yes, love will find a way  
Open up your heart, give the greater part  
And it will, yes it will, I know it will  
Love will find a way, oh, yes it will

Listen, it's all a part of you searching for the truth  
Seeing where roads will lead you  
Now I realise that problems may arise  
There's someone I can come to

Remember time waits for no man  
Don't give up, it's time to take a stand

I don't understand, what's the master plan  
Will it ever come together  
Yes, love will find a way  
Open up your heart, give the greater part  
And it will, yes it will, I know it will  
Love will find a way

In the middle of the night  
Love will lead you to the light  
You can win, hold on  
Don't give up the fight  
Love will make things right  
You can win, you can win  
You can win, now I understand

You know that love will find a way  
Open up your heart, give the greater part  
And it will come together  
Love will find a way

Now I understand, this is the master plan  
Oh yes it is, yes it will  
And I know that love, love will find a way  
Believe it, love will find a way  
I know it will, love will find a way  
Trust in yourself, love will find a way  
Ooh, love will find a way
