

One Thing On My Mind

Dionne Warwick

I don't need the country
Homemade dinners on Sunday
Talks with your little brother
Or your mother, baby

Don't send me no flowers
Or sweet talk me for hours
Love needs no disguises
Just surprises, baby

(Just) One thing on my mind
A magical ride
On a sweet sensation
Love can be so fine
And I've got the time
Honey, let's not waste it

Some ladies will tease you
Talk about how they'll please you
Spend your love and your money
It ain't funny, baby

I don't need the night life
All its glitter and bright lights
I can't get satisfaction
From distractions, baby

(Just) One thing on my mind
A magical ride
On a sweet sensation
Love can be so fine
And I've got the time
Honey, let's not waste it

Oh, you never can touch the stars above
Till you've taken the time to fly
And the quickest way to the heat of love
Is by looking it in the eye

(Just) One thing on my mind
A magical ride
On a sweet sensation
Love can be so fine
And I've got the time
Honey, let's not waste it
