

Only the Strong, Only the Brave

Dionne Warwick

I know that the road to love can be paved with tears
Maybe I'm a fool to love you knowing life is cruel
Only the strong, only the brave
Can survive all the heartaches that tear most people
apart
Can survive all the heartaches and still keep love alive

When you reach out for a star people pull you down
Swear to be true is easy, but I'm telling you
Only the strong, only the brave
Will be loving each other each single step of the way
Will be loving each other with all the fears of today

Our love is strong, our love is brave
I know, I know our love will last
