Take Good Care of You and Me

Dionne Warwick

Take good care of you and me Protect us from the things that hurt love Jealousies that take you under Lies that undermine

Please be fair to you and me And don't betray the love I give to you When you're away don't make me wonder If I'm on your mind

Take good care of you and me Real love is hard to find

Look in my eyes, I'll fall in love with you Over and over, for the rest of our lives

Hear what I say now, I want our love to be The one that's the strongest And the one that survives Cos there's no-one else, no no-one else That makes me feel so glad I'm alive

Baby, words are far a note to end on If we should fall apart Take good care of you and me I've given you my heart

Look in my eyes, I'll fall in love with you Over and over, for the rest of our lives

Hear what I say now, I want our love to be The one that's the strongest And the one that survives Cos there's no-one else, no no-one else That makes me feel so glad I'm alive

Hear what I say now, I want our love to be The one that's the strongest And the one that survives Cos there's no-one else, no no-one else That makes me feel so glad I'm alive

Look in my eyes, I'll fall in love with you Over and over, for the rest of our lives

Hear what I say now, I want our love to be The one that's the strongest And the one that survives Cos there's no-one else, no no-one else That makes me feel so glad I'm alive

Look in my eyes, I'll fall in love with you Over and over, for the rest of our lives
