Walk the Way You Talk

Dionne Warwick

Just because you said things have got to change
They won't go away
Nothing goes away
Not unless you do the things you promised to
So walk the way you talk and talk the way you walk

Saying something's wrong isn't good enough
That won't make it right
Gotta make it right
And the only way is doing what you say
So walk the way you talk and talk the way you walk

There's nothing that's so bad that leaving it alone
Just doesn't make it worse
Time won't wait
Maybe tomorrow it may be too late
Don't just stand alone on a mountain top
Join the world today
Do it right away
Don't you know that you are only what you do
So walk the way you talk and talk the way you walk

Don't you know that you are only what you do
So walk the way you talk and talk the way you walk
