

We'll Burn Our Bridges Behind Us

Dionne Warwick

I can tell by the look in your eyes
You've been hurt, well so have I
Leave behind old memories
Concentrate on just you and me
Put aside the hurt and pain
We'll make sure it don't happen again

We'll burn our bridges behind us
Burn them right down to the ground
Burn our bridges behind us
Love's gonna keep us safe and sound

Come to me and when you do
Open arms are waiting for you
Both of us have paid our dues
But this time we got something new
We gotta love to light our way
Baby, forget about yesterday

We'll burn our bridges behind us
Burn them right down to the ground
Burn our bridges behind us
Love's gonna keep us safe and sound
