

# Whisper in the Dark

Dionne Warwick

Come closer now  
So I can see you in the dark  
I wanna hold your body next to mine  
I wanna hurry love and take my time

Hold onto me  
And let me feel you in my arms  
Touch me and slowly steal my breath away  
Then tell me things that no one else would say

And I wanna feel your heart here every night  
And I long to hear your voice saying, "It's alright"  
To know you, so you

Whisper in the dark  
Stuck there in the night, I know  
Touch me with a spark  
And as we join together, love, I'll never let you go

Where we are  
Is where I always want to stay  
I love to kiss you as we break apart  
And share the secrets deep inside my heart

And I want to feel you right here every night  
I long to hear your voice saying, 'It's alright'  
To know you, so you

Whisper in the dark  
Stuck there in the night, I know, I know  
Touch me with a spark  
And as we join together, love, I'll never let you go  
Never let you go

Travel with me through time and space  
Each night is all we need  
Our love will be a private place  
To come to, so you

Whisper in the dark, in the dark  
Stuck there in the night, I know  
Touch me with a spark  
And as we join together, love

We will whisper in the dark  
Stuck there in the night, I know  
Touch me with a spark  
Stuck there in the night, I know

Whisper in the dark  
Stuck there in the night, I know  
Touch me with a spark  
Stuck there in the night, I know
