

Who Knows

Dionne Warwick

Many things in our lives
Come and go just for sure
Even people, sometimes are bought
So they won't get caught all alone

When I take a look around me
At the sadness that surrounds me
I think, how lucky I am

Who knows just where we're going
Who knows what it will be
I see a future before us 'cos I know
You'll be there with me

Count the times that you sing
Someone choose, just to lose
In these times when nothing is sure
And people need more, I'm glad there is you

When I take a look around me
At the sadness that surrounds me
I know, how lucky I am

Who knows just where we're going
Who knows what it will be
I see a future before us 'cos I know
You'll be there with me

Who knows just where we're going
Who knows what it will be
I see a future before us 'cos I know
You'll be there with me

Tell me, who knows just where we're going
Who knows what it will be
