

World of My Dreams

Dionne Warwick

Let's take a trip to Tomorrow Land
Mystical world be on the star
Let's been the day on the lollipop trees
have lunch with the wizard above

Just close your eyes and we're half way there
moments away from paradise
let's go toes in a lemonade stream
build a house out of strawberries eyes

Come, follow me into the world of my dreams
Follow me into the world filled with laughter
Come, follow me into the world where my dreams come true

Let's take a ride on the chocolate bar
sliding down the mountain made of cake
then for a treat, stop by coconut bay
I've been told we can catch falling stars

Come, follow me into the world of my dreams
Follow me into the world filled with laughter
Come, follow me into the world where my dreams come true

Come, follow me into the world of my dreams
Follow me into the world filled with laughter
Come, follow me into the world where my dreams come true

Come, follow me into the world of my dreams
Follow me into the world filled with laughter
