

Champagne For All

Diorama

It is not that I cannot deal with it
Or bear the punishment
Give me the bullet I deserve
But it wasn't my idea
There is no room for error
In a balanced house of cards
How the hell did it collapse
There was no wind at all

Someone must have cut the leash
To corrupt the entertainment
Maybe it was me
But it wasn't my idea
Northern light mentality
Deadened inconceivable
I really try to feel ashamed
But i feel nothing at all

Take a drag take a drag
May it stick inside your throat
May it cause you to forget
But it wasn't my idea
Be aware of me again
Switch off your smile
Delete the file
And look at me again

Champagne for all
Champagne for all
Add your insanity to mine
And maybe there's a way
Maybe we'll be safe

My desire is your desire
Only in a different shape
A feedback in the matrix
But it wasn't my idea
The mask is nice to wear
Extremely accurate
Und du weißt nicht
Mit wem du sprichst
Und nichts ist wie es scheint

These drops are killing me
How come they taste so sweet
What a meaningless joke
(But it wasn't my idea)

Take a drag take a drag
May it stick inside your throat
May it cause you to forget
But it wasn't my idea
Be aware of me again
Switch off your smile
Delete the file
And look at me again

All I am is the observer
Of the total dissolution
Of my ability to feel
(But it wasn't my idea)

Champagne for all
Champagne for all
Add your insanity to mine
And maybe there's a way
Maybe we'll be safe
