

Dear Brother

Diorama

I am your doubt
Your constant sin
The swollen shape
Of your regrets

You make your way
To where I am
As you remain
Inside the cold white room

Brother shoot me down
Kill me from within
Brother shoot me down
Kill me once again

I am the void
Carved in your face
All eyes and ears
Are bouncing off

Don't let a sound
Seep through the wax

You left a friend
Inside the cold white room

Brother shoot me down
Kill me from within
Brother shoot me down
Kill me once again

I'm the hurricane
In your water glass
Stir me
Stir me

I am your first step
Into no man's land
Walk me
Walk me

Brother shoot me down
Kill me from within
Brother shoot me down
Kill me once again
