

No Tears

Diorama

I won't stand in your way
I'm not part of this
Go on get absorbed
I'm not part of this
Black hole triggering
At the back of your head
Something is pouring out
At the back of your head
Floodgates open wide

Take it easy my friend
Take a spoonful of that
With your vitamins
Take a spoonful of that
Maybe it speeds up
The way you come apart
In your captivating style
The way you come apart
As the rhythm flows

No tears no tears no word too much
Walk on walk on
With all the things
That you've achieved

In the cold of the night
You're replaying it
A hundred thousand times
You're replaying it
You fail to see the flaw
Put your pen away
The drama writes itself
Put your pen away
And let it happen...

No tears no tears no word too much
Walk on walk on
With all the things
That you've achieved

The sand is trickling
The sand is trickling
Down the hourglass
The sand is trickling
The sand is trickling
Down the hourglass
