

## No Tears

Diorama

I won't stand in your way  
I'm not part of this  
Go on get absorbed  
I'm not part of this  
Black hole triggering  
At the back of your head  
Something is pouring out  
At the back of your head  
Floodgates open wide

Take it easy my friend  
Take a spoonful of that  
With your vitamins  
Take a spoonful of that  
Maybe it speeds up  
The way you come apart  
In your captivating style  
The way you come apart  
As the rhythm flows

No tears no tears no word too much  
Walk on walk on  
With all the things  
That you've achieved

In the cold of the night  
You're replaying it  
A hundred thousand times  
You're replaying it  
You fail to see the flaw  
Put your pen away  
The drama writes itself  
Put your pen away  
And let it happen...

No tears no tears no word too much  
Walk on walk on  
With all the things  
That you've achieved

The sand is trickling  
The sand is trickling  
Down the hourglass  
The sand is trickling  
The sand is trickling  
Down the hourglass
