

# Refugee

## Diorama

I cancelled gravity  
Broke off intimacy  
No more dying of thirst  
Beside the fountain  
I sleep a quiet sleep  
Street dogs are guarding me  
And don't say goodbye  
I'm gone already

I'm a refugee don't talk to me  
I prefer to be anonymous  
Don't relate to me or send your artillery  
Let us get wasted in the black cafe

I'll take a final flight  
With the clay pigeons  
I won't bore you again  
With faint resistance  
I know a hiding place  
Nobody wants to find  
And that's where I'll sit  
And watch the dominoes fall

I'm a refugee don't talk to me  
I prefer to be anonymous  
Don't relate to me or send your artillery  
Let us get wasted in the black cafe

Security  
The bait we swallow  
Security  
How wrong we are!

Security  
The bait we swallow  
Security  
How wrong we are!
