Wingless

Diorama

Define your demon and be precise Impending wars now sharpen your eyes Regeneration from now to then For time will limit itself again

My aim -disprove you- lacks irony Your wisdom even extends to me Are you nervous needless to say What's black tomorrow is pale today

Give wings to my words and let them fly
To spheres I know of and wonder why
Dumb words in silence might now confess
You had hoped for nothing and still got less

Draw a picture in case it helps
Of all vague faces I call myself
Give it details turn it real
I can't remember how colors feel

I'll give you shelter I'll give you peace A handful water instead of seas For any reason that is unfair And for a smile that I'll never share

I'll give you shelter I'll give you peace A handful water instead of seas For any reason that is unfair And for a smile that I'll never share

Draw a picture in case it helps
Of all vague faces I call myself
Give it details turn it real
I can't remember how colors feel

Don't give up
