So I want you for me to die

Hide your bloodveined eyes Swallow your loneliness

The voice pressures in Your words that ask for me The joy of being needed I bite my nails just a little

Hide your crying wrists The spilling milk The

persistent cat becomes silent

You don't want it but can't take your eyes off of the spilled m ilk

Is that love ? Mistake ?
I look at you just a little

I picture the swaying vision Of the reality becoming real You t est me persistently

You get angry when I don't agree You lose yourself And I fall in love with you once again

Can't be touched Won't be touched

blind sorrow

I know it's hard for you to wait for me, so don't cry, go ahead and sleep

What do you want from me? If I say to you that you look beautif ul, will you be able to sleep?

You stare at the flowers by the window, without even blinking You want what you can't have, You wish to be pregnant But the o nly thing you can't hear is this child's...

It's so dark and dark and dreadful Lets calm down with an old tale

I am good at pretending to cry So I spill the milk and smile an d I yell her the truth about not being pregnant

Don't do an excessive thing.
