

## Chinese Dogs

### Dirty Pretty Things

Well, it took you seven years to learn my name  
And I know it's all the drugs and booze that I took, lame  
Oh, sh-sh-shame  
(What a shame)

But it took me seven years to forget your name  
All the drugs, all the fools and all the  
The hanging around, I fell out of the game  
What a shame

What would it take for me to be your man?  
What would it take for me to be your man?  
What would it take to make you understand?  
What would it take to make you understand?

Well, all the filthy old Mary's and their Chinese dogs  
So, is a no go, oh, if you know what I know, what?  
I know what you know, oh dear

A million common people want to tear your head off  
Just to show your bones to the night  
Cause the night is when I'm satisfied  
Woah, oh, oh

What would it take for me to be your man?  
What would it take for me to be your man?  
What would it take to make you understand?  
What would it take to make you understand?  
It can't be us ?cause the worlds gone cold

And if the hat don't fit ya  
Yeah? It don't fucking fit ya

What would it take for me to be your man?  
What would it take for me to be your man?  
Well, what would it take to make you understand?  
What would it take to make you understand?  
It can't be us ?cause the worlds gone cold
