

# Depression

Dirty Projectors

Right here  
All by myself  
I ain't got nobody else

The situation  
The situation is bleeding me there's no relief

Depression  
Depression  
Depression is gonna kill me tonight.

Depression  
Depression  
Depression is gonna kill me tonight.

I ain't got no friends to call my own  
I just sit here all alone  
There's no girls, there's no girls, there's no girls  
that(?) wanna touch me get away I don't need your fucking sympathy

Depression is gonna kill me tonight.  
Depression  
Depression  
Depression is gonna kill me tonight.

Depression  
Depression  
Depression gonna kill me...

Everybody just get away  
I'm gonna boil over inside  
They say  
They say things  
They say things are gonna get better  
All I know is they fucking better
