

## There's A Fire

Dirty Projectors

If you have paused in the foil  
Before going to join the ... year  
If you were ... and hesitating  
Asking yourself what's the deal  
And if a force is telling you the truth  
You should probably know just what to do  
I'm telling you right now there's a fire

If you've been looking for reasons deep in the creases are fold  
ed up close  
If you've been chasing all shapeless papers,  
Rubbing on statues, singing blues  
And if at all, is that enough to know  
On your right, who's bidding have we done?  
I'm telling you right now there's a fire
