

# Work Together

Dirty Projectors

Complex plans and high ideals  
But he treats people poorly  
Is a ceaseless ambitiousness proxy for a void  
He's ignoring

How good  
We could have it if we work together  
I feel love should be enough to get it easily done  
Maybe love is competition that makes us raise the bar  
We better ourselves  
We could be so good if we work together

Work together, work together, work together  
Work together, work together, work together

Crippling fear, assailing doubt  
So she blinkers her vision  
Is the life she's living not the one she dreamt of and envisioned?

How good  
We could have it if we work together  
I feel love should be enough to get it easily done  
Maybe love is competition that makes us raise the bar  
We better ourselves  
I'm just here for the reciprocity to drop  
Now we gon' see

Work together, work together, work together  
Work together, work together, work together  
Work together, work together, work together  
Work together, work together, work together

How good  
We could have it if we work together  
I feel love should be enough to get it easily done  
Maybe love is competition that makes us raise the bar and better ourselves  
We could be so good if we work together

Work together, work together, work together, work together

You made me feel like maybe love  
Maybe love is competition  
You made me feel like maybe love  
Maybe love is competition  
You made me feel like maybe love  
Maybe love is competition  
You made me feel like maybe love  
Maybe love is competition
