

# Never Enough

Dirty Vegas

I wake up  
And my feet don't touch the ground  
I look out  
To the mess that's all around  
And now I'm bruised from  
All this confusion

Don't even think about it  
I think I know just where you're coming from  
We been waiting for this moment far too long  
Let's keep it simple cause it's only love  
I think we both know what we're doing here  
Our true intentions ain't exactly clear  
Let's keep it simple yeah cause everything everything everythin  
g is never enough

I went down  
To a friend I used to know  
She said how  
Comes your so cynical  
When free from  
This illusion

Don't even think about it  
I think I know just where you're coming from  
We been waiting for this moment far too long  
Let's keep it simple cause it's only love  
I think we both know what we're doing here  
Our true intentions ain't exactly clear  
Let's keep it simple yeah cause everything everything everythin  
g is never enough

Is never enough, is never enough, is never enough

And I just can't seem to help myself  
I'm a fool to believe there was no one else  
And I just can't seem to help myself  
Yeah cause everything, everything, everything is never enough

And I just can't seem to help myself (is never enough)  
I'm a fool to believe there was no one else (is never enough)  
And I just can't seem to help myself (is never enough)  
Yeah cause everything, everything, everything is never enough,  
is never enough, is never enough
