

So here we are, we've come this far  
It's never been so good  
Nothing ever lasts forever  
So maybe now we should

Try an' hold on to what we got  
'Coz the only thing worth living for is love

So live a dream, forever it means  
Treat money like a God  
Coming clean for the part of the scenes  
Now the devil's in your blood

When we're running out of luck  
Seems the only thing worth living for is love

So come on take my hand  
We can go anywhere  
Can you see what we've got?  
'Coz the only thing worth living for is love

So come on take my hand  
We can go anywhere  
Can you see what we've got?  
'Coz the only thing worth living for is love

An' when at last our time is up  
You'll see the only thing worth living for is love

So come on take my hand  
We can go anywhere  
Can you see what we've got?  
'Coz the only thing worth living for is love

So come on take my hand  
We can go anywhere  
Can you see what we've got?  
'Coz the only thing worth living for is love, is love

It's the only thing worth living for  
It's the only thing worth living for  
It's the only thing worth living for  
It's the only thing worth living for is love
