Setting Sun

Dirty Vegas

There is no reason we should give in There is no reason we should start We are breaking down our hope our same Cause this is all we've got

The picture is never perfect We were broken from the start But the pieces fit together now It's better than if it fall apart

Don't stop now Can't stop now Cause all we gotta do is run Keep running from the setting sun

There is no reason we should give in There is no reason we should start We are breaking down our hope our same Cause this is all we've got

Don't stop now Can't stop now Cause all we gotta do is run Keep running from the setting sun

Don't stop now (Don't stop now) Can't stop now (Can't stop now) Cause all we gotta do is run Keep running from the setting sun

All we gotta do All we gotta do All we gotta do is run All we gotta do All we gotta do All we gotta do is keep running from the setting sun

All we gotta do All we gotta do All we gotta do is run All we gotta do All we gotta do All we gotta do is keep running from the setting sun

Don't stop now Can't stop now Cause all we gotta do is run Keep running from the setting sun

Don't stop now (Don't stop now) Can't stop now (Can't stop now) Cause all we gotta do is run Keep running from the setting sun
