

Cypher Drone

Disarmonia Mundi

Got no time to think about
What they did to me
I have lost my former self
And still I'm changing

Rain, come down on me
Nightfall, won't you just set me free?
Rain, come down on me
Rain on me

Just accept the sorrow,
Fade away,
Look around for turning points,
Let me go
Bringing back tomorrow,
Led astray
'Coz you're the only one who knows
Just accept the sorrow,
Fade away,
Look around for turning points,
Let me go
Bringing back tomorrow,
Led astray
'Coz you're the only one who knows

Banish me to feel safe
In your prison of gold and morality
Cursing my birth as an
Aberration a sick child of subhuman breed

Life, it ends tonight
Breaking the chains of eternity
Life, it ends tonight
Set me free

What should I know?
What should I do to get rid of you?
Your life to me equals nothing

Rain, come down on me
Nightfall, won't you just set me free?
Rain, come down on me
Rain on me

Just accept the sorrow,
Fade away,
Look around for turning points,
Let me go
Bringing back tomorrow,
Led astray
'Coz you're the only one who knows
Just accept the sorrow,
Fade away,
Look around for turning points,
Let me go
Bringing back tomorrow,
Led astray

'Coz you're the only one who knows

Take me back to where
My soul still means a thing
I don't need your world of lies,
Just want release

Memories are just fading ghosts
Telling the story of someone else
I never had a past,
The present is a lie and now
I know my future is dead

Life, it ends tonight
Breaking the chains of eternity
Life, it ends tonight
Set me free

Rain, come down on me
Nightfall, won't you just set me free?
Rain, come down on me
Rain on me

Just accept the sorrow,
Fade away,
Look around for turning points,
Let me go
Bringing back tomorrow,
Led astray
'Coz you're the only one who knows
Just accept the sorrow,
Fade away,
Look around for turning points,
Let me go
Bringing back tomorrow,
Led astray
'Coz you're the only one who knows
