

## Believe

## Disbelief

Make you understand  
Than I fight'til the end  
No effect on me  
If you try spread misery

I'm a believer  
I'm a believer

A spring - board to my brain  
For you it's only a game  
Just another try for me  
To progress for my victory

Believer

I'm a believer  
I'm a believer

How long you'll stay with me  
I'm your worst enemy  
I'm a believer - for you - no compromise

No compromise

Believer - believer - believer

So, now I'm free  
And you'll see  
Don't go back to past  
Assassinate the scars
