Disbelief

```
they're laughing, they're laughing - once I...
they're nothing, they're nothing... once I...
don't try again
I really want to fly, I never give up hope - I cry
they know nothing from me, myself and I
they know nothing from me, myself and I
they're nothing, they're nothing - once I...
from me, myself and I
the start - your life - your death - your pride
down
```
