

# Nemesis Rising

Disbelief

Join my world, enjoy it, taste it  
Come inside and suffer, hell awaits you!

The dark side rises forever  
It's me, I'm a part of it again  
I'm your friend and the end  
I'm your Nemesis - Nemesis rising  
Nemesis rising - Nemesis rising - Nemesis rising

So far apart and still close to you

Day by day - over and over again, again...  
Line by line - I commit myself to you - I resurrect you

Nemesis rising - Nemesis rising - Nemesis rising

Will be together as one!

Every word, all the trust, a lie, a lie...  
Every single step forward is one step closer till you  
die

Die - your soul will be screaming  
Die - and your wishes will stop from wandering

I can reach you anytime  
Deadly lies passed in every line  
An unseen gathering slowly becomes real  
Wake up the time when I reveal

I can reach you anytime  
Deadly lies passed in every line  
An unseen gathering slowly becomes real  
Wake up the time when I reveal myself to you, myself to  
you...

Now you're here, besides a monster  
Caught in a trap, you're dead

I can reach you anytime  
Deadly lies passed in every line  
An unseen gathering slowly becomes real  
Wake up the time when I reveal

I can reach you  
I can reach you anytime!  
I can reach you  
I can reach you anytime, anytime!

Nemesis rising - Nemesis rising - Nemesis rising

Will be together as one!
