Disbelief

So I can tell you a story of... of my life
Of sadness and sorrow, I show you my world where I hide

How did it come that I'm helpless, I'm on the edge
Far away from my own life, I'll be everywhere

I'm the one, but I'm not there
I've become a passenger, far away, lost and no one
knows me
From that day on, I started to
To search for this: my attitude! Every day I like my
last day

Can I be sure that I'm right when I say, hi!
Hi, to this way that I'm walked and passed by
Oh, every day I remember my first day on this side

I'm the one, but I'm not there
I've become a passenger, far away, lost and no one
knows me
From that day on, I started to
To search for this: my attitude! Every day is like my
last day

I'm far away from my own, far away from my own
My whole life changes and starts anew
Whole life changes and starts anew, anew...

I'm the one, but I'm not there
I've become a passenger, far away, lost and no one
knows me
From that day on, I started to
To search for this: my attitude! Every day is like my
last day

Passenger - Passenger - Passenger
I'm far away from my own
Passenger - far away from my own
I'm far away from my own, far away from my own
My whole life changes and starts anew
Whole life changes and starts anew, anew
