

Society's Victim

Discharge

I'm just a victim of your wildest lies
Send in my photo with another name

I'm society's victim

Nobody has to get you to buy it now
That's your concern and I don't vote

I'm society's victim

I'm just the subject of discussion now
The one no-one admires

I'm society's victim

I'm not just sufferin' from paranoia
It's invented by you and them

I'm society's victim
