

Attack

Disciple

Here we are here we stand
Gone are the days of your ignorance
Now we know there's an enemy we will fight
Believe in Me, I will be with you
Believe in Me, I will go before you

So hang on every word I say
Don't let them take you by surprise

Are you ready for a fight?
Then you're in the right place tonight
Get ready for a fight now baby
We are on the attack
We strike first, we strike last
Till they're all struck down

Watching with sober eyes
All the weapons you need I will bring to this fight
Know that I will be with you
I will go before you

So hang on every word I say
Don't let them take you by surprise

Are you ready for a fight?
Then you're in the right place tonight
Get ready for a fight now baby
We are on the attack
We strike first, we strike last
Till they're all struck down

When the bullets start to fly
It's time to let your faith arise
In the battle for your mind

When the bullets start to fly
It's time to let your faith arise
In the battle for your mind

Are you ready for a fight?
Then you're in the right place tonight
Get ready for a fight now baby
We are on the attack
We strike first, we strike last
Till they're all struck down
