

Crawl Away

Disciple

Burn a candle by my bed, sleep won't visit me tonight
Images inside my head don't reflect the light inside
Deceiver whispers my name, tries to crawl up by my side
Lord deliver me, don't leave me alone tonight

It is He who's in me that's greater than he that's in the world
The struggle's not with me, the battle belongs to the Lord

Crawl away, I confess that I'm less than a righteous man You accuse,
He forgives, as I live in a wanderer's land
Crawl away, I confess that I'm less than a righteous man
Crawl away

Try to make me fall only builds my faith in Christ
My knee hits the ground, reveals the secret I can't hide

Took the life from you, took the keys right from your hands
Try to compare Him, but you are subject to the Lamb
