

Fight for Love

Disciple

The body's failing, and my heart is breaking
Hell is awakened, the souls it's taking
We're taking back where they belong
You cannot make us stop
You'll never make us stop
It's not about the songs, it's about our God

Who will stand and rise against injustice?
Take up the cause of the unwanted ones?
Who will stand to fight against us?

We live, we fight
We live, we die
We fight for love

Church windows breaking from people living outside the walls
The bride must be ready for Jesus' imminent return
