

# Kamikaze

Disciple

I'm sick of standing here watching your world fall apart  
You've got a face I don't recognize anymore  
All my words just bouncing off the wall of your heart  
You're not the only one you're gonna hurt  
Can't you see you're taking me down with you

You're going down like a kamikaze aeroplane  
Ain't going out till you blow somebody else away  
You are the sound they hear before it goes to flames  
You are the sound of the kamikaze airplane

If I just lie here paralyzed without a word  
Would you be able to call me a friend anymore  
I'm not standing in your way but I won't go along  
So the choice is only yours to make  
Cause I won't let you take me down with you

You're going down like a kamikaze aeroplane  
Ain't going out till you blow somebody else away  
You are the sound they hear before it goes to flames  
You are the sound of the kamikaze airplane
