

With their right hand they bring disease
While the other bears a flag of peace
Their words dipped in camouflage
Breathing sabotage

When the enemy strikes we will fight
We'll stand up, be bold
When we're under the gun we won't run
We'll stand up, be bold like a lion

Pretty wisdom spreading out her wings
Calming hurricanes when she speaks
And they swear they won't hurt her
Breathing murder

When the enemy strikes we will fight
We'll stand up, be bold
When we're under the gun we won't run
We'll stand up, be bold like a lion

When the enemy strikes we will fight
We'll stand up, be bold
When we're under the gun we won't run
We'll stand up, be bold like a lion
