

No End at All

Disciple

Like a moon that tries to hide away
But the dawn will catch it with the day
Like an angry son that's moving on
But he never will forget his home

Feel this grace shining in
There's nowhere that you've not
Walked with me on, carried me on

There is nowhere I can go
Even in the depths of the sea
You're not too far away
When I wake when I sleep
You are capturing me
With a love that knows no end at all

Like a desert that is dead and dry
But the river fills it up in time
Like a daughter that's been thrown away
Then is adopted by a kinder face

Feel this grace shining in
There's nowhere that you've not
Walked with me on, carried me on

There is nowhere I can go
Even in the depths of the sea
You're not too far away
When I wake when I sleep
You are capturing me
With a love that knows no end at all

Walked with me on, carried me on

There is nowhere I can go
Even in the depths of the sea
You're not too far away
When I wake when I sleep
You are capturing me
With a love that knows no end at all

No end at all
