

Rise Up

Disciple

I will not stand silently by as you mock and curse my God
Stand against Him; you will be brought down

Here I come; I'm bout to rise up
All of my people, we're 'bout to rise up
Here we come now, we're 'bout to rise up
All of my people, we're bout rise up

You bark accusations that paralyze my brothers in fear
Only a small spark starts an unquenchable fire
