

# Why Don't You Shut Up

Disciple

Remain in me, don't sever me  
Don't spit me out  
Call on me and walk me to Your way  
My lips aren't sealed

Some will say this and then some will say that  
I really don't know just where you are at  
If the truth be told, you're just getting to old  
Moving way too fast, and getting to cold

You say that I should just give up  
You say why don't you just shut up

You'll never shut me up  
Forgive me if I should lose my way  
Don't cut me off  
Cause I choose You in my life today  
Even if they hate me
