# Confess To Me

**Disclosure**

I can help you run away for good
Overtake what you had understood
All it takes is a little understanding
After all, don't question if I would

Confess to me, make me feel it
Confide in me, don't resent it
'Cause I can't stop you for nothing
I'll fulfill your desires for you [3x]
[2x]

I can take the lo out of lonely
I can stop the sense of slowing down
Don't get lost in if you only tell me
I will help you slip and turn it round

Only not to worry
No time left for me
Only not to worry
No time left for me
[2x]

Confess to me, make me feel it
Confide in me, don't resent it
'Cause I can't stop you for nothing
I'll fulfill your desires for you [5x]
